

LALA HASHIMOVA

ML engineer

ABOUT ME

I'm a master's student in Artificial Intelligence. I have completed AI course in IDTECH and gained hands-on experience in machine learning and deep learning. Seeking internship or junior AI/ML engineering opportunities to apply and grow my skills.

SKILLS

Hard skills

AI & programming

Python, scikit-learn, PyTorch, data preprocessing and analysis, working with datasets and labels, basic model training and evaluation, deep learning fundamentals

Frontend

HTML, CSS, JavaScript, React.js, Tailwind.css

Tools & technologies

Git, SQL, Jupyter

Soft Skills

Communication, time management, team work, problem solving, critical thinking

EDUCATION

ASOIU | 2025-2027

Master of AI

ASOIU | 2021-2025

Bachelor of IT

PROJECTS

ML

PM2.5 prediction

It's an end-to-end regression pipeline to predict PM2.5 pollution levels across 12 Beijing monitoring stations.

Includes EDA, feature engineering, and seasonal trend analysis on 420K+ records. I've trained and compared Linear Regression and Random Forest models using scikit-learn, evaluated with MAE, MSE, and R^2 metrics.

[github link](#)

DL

Wine quality classification

It's a multi-class neural network classifier in PyTorch to predict red wine quality across 3 categories (low / medium / high). Includes feedforward architecture with 64→32 hidden layers and ReLU activations, StandardScaler normalization and stratified train-test split. I've achieved 83.8% test accuracy, evaluated with precision, recall, F1-score and confusion matrix. [github link](#)

LANGUAGES

- Azerbaijan – Native
- Russian – Fluent
- English – Intermediate

EXPERIENCE

Maestro School |

Apr 2025 - Jul 2025

Frontend Internship

- Completed hands-on tasks covering HTML, CSS, JavaScript, React.js, Tailwind.css
- Taught lessons to help strengthen students' practical skills.
